

Portable Solar Charging Kits

Portable kits are so easy to use! Just unfold, connect the pre-wired battery clamps to a battery and start charging. Capture the power of the sun without complicated installations, brackets or electrical diagrams. Portable kits fold away conveniently with an easy carry handle for quick transport or storage. Now you can take solar with you!

Each Kit Includes:

PRODUCT FEATURES

- Solar panel is pre-wired with battery clamps for a quick and easy connection, 16' cable
- Adjustable legs allow for maximum sun exposure
- Built-in 3 stage 10 Amp charge controller manages the charge to the battery and prevents overcharging
- For use with 12V Lead Acid batteries (sold separately)
